AwayWith
Geese.com™

Geese. Gone. Guaranteed.

Away With Geese features an amber 360-degree solar-powered light that flashes every two seconds, every night, year-around. The light is scarcely noticeable to us but is very disruptive to the sleep of the geese, causing them to no longer feel secure. After just a few anxious and restless nights, they find another habitat.

We guarantee satisfaction. If after 90 days of use you are not satisfied, you can return any and all units for a full refund.

Away With Geese is the ONLY guaranteed goose deterrent on the market.

Away With Geese Units are:

- **satisfaction guaranteed.** You will be satisfied, or we'll give you your money back.
- **maintenance-free.** The lights are solar powered; once placed, the units require no upkeep.
- **NOT bothersome to people.** The light is very annoying to geese, as they have incredibly sensitive eyesight, but to humans it is dim and scarcely noticeable.
- **environmentally friendly** and have no impact on the natural landscape.
- **humane.** Though they annoy the geese enough to relocate, they have no ill effect on them.
- **cost effective and sustainable.** Once placed properly, they will end your geese problems, once and for all.

Call 888.PEST.MGMT to place an order or request a placement study of your property.

Find the Away with Geese System That's Right for You.

There is an Away With Geese unit for every type of landscape:
